

Laboratory Services

Nacogdoches Family Medicine partners with a national laboratory service to give you 1-day turnaround on lab results. We are part of the laboratory services computerized reporting system so that **Carl Willeford, Jr., MSN, FNP-C**, can see your lab results the next day, having them ready to discuss with you on your follow-up visit.

Insurance billing and filing for any laboratory services will be done by the laboratory service company and not by Nacogdoches Family Medicine.
